Subject: Re: Agenda and Site Performance Markers for 01/27/03 Weekly TES Status Meeting

Jill,

We are transferring our methods for 1-OHP, HPMA and Butadiene Metabolites to our Montreal facility. All future shipments for those compounds should go directly to Montreal.

Please make the necessary arrangements. I will participate in the call today and we can discuss this. Robin Kinser is aware and will give you any necessary client approval.

Also, I am phasing out of my responsibility for Phillip Morris. The new Principal Scientist for bioanalytical in Lincoln will be Peggy Ruhn(peggy.ruhn@mdsps.com) Please copy her and me on all future mailings.

Nathalie Rousselle is the contact for the method transfer to Montreal. She will provide you with the address to send the samples for the above-mentioned analytes.

Thanks,

Chad
